## **BACTERICIDE, FUNGICIDE DISINFECTANT WATER TREATMENT**

DRINKING  
WATER

PIPELINES  
BIOFILM

UNE EN 902  
STANDARD

Product for sanitising the water of consumption. It is based on hydrogen peroxide. Its composition allows to eliminate the biofilm and prevent its recurrence by controlling in this way the onset of diarrhoeas. Inhibits incrustation. Controls corrosion. Its complete biodegradability provides it with an excellent environmental performance. Broad bactericide, and fungicide spectrum.

**DOSING:** 30-50 ml of PREVIO SALUDINE per 1,000 L of water.

FOOD GRADE. 100 % BIODEGRADABLE. LIVESTOCK AND POULTRY USE

The efficacy you need.

# PREVIO®

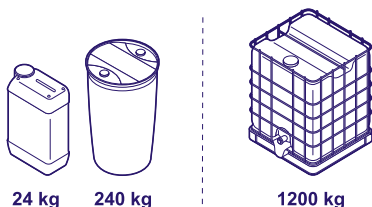

## Saludine®

### COMPOSITION

Hydrogen peroxide in solution 49.9%  
Excipients q.s. 100%

## DETERGENTS / SANITIZERS

### PROPERTIES:

product for sanitising the water of consumption (product conform to UNE-EN-902) and the surfaces coming in contact therewith. It is based on hydrogen peroxide, active ingredient of high oxidizing and disinfectant power, although without the odour and other disadvantages of chlorine, like the appearance of substances with irritating effect such as chloramines. Its composition allows to eliminate the biofilm and prevent its recurrence by controlling in this way the onset of diarrhoeas. Inhibits incrustation. Controls corrosion. Its complete biodegradability provides it with an excellent environmental performance.

### COMPLIES WITH:

UNE-EN 1276 STANDARD: *Escherichia coli*, *Pseudomona aeruginosa*, *Enterococcus hirae* and *Staphylococcus aureus*.

UNE-EN 1650 STANDARD: *Candida albicans*, *Aspergillus niger*.

UNE-EN 13697 STANDARD: Chemical antiseptics and disinfectants.

### INDICATIONS, RECOMMENDED DOSES AND USE:

PREVIO SALUDINE is indicated for water sanitising in ponds or tanks and cleaning the water storage and distribution systems.

#### Water sanitation:

Apply the product distributed at different points of the water mass in the following quantities:

- Shock Treatment:

300 ml of PREVIO SALUDINE per 1000 L of water.

- Maintenance Treatment:

30-50 ml of PREVIO SALUDINE per 1000 L of water.

The product can also be applied continuously by using a dosing pump.

#### Treatment of pipelines:

Use a solution of 1.5 to 3 ml of PREVIO SALUDINE per 10 L of water.

Mode of application: Recirculate it, leaving to act for 3 hours.
